

Meticle

Supported Living Care Management

Platform Demo Package

Everything you need to manage care operations, compliance, staffing, and billing — in one connected platform built for UK supported living providers.

Platform Overview

One connected platform for UK care operations

MeticleCare brings care planning, medication administration, daily care notes, staff rotas, incidents, training, and CQC compliance together in one connected platform. Built for CQC, CIW, Care Inspectorate Scotland, and RQIA frameworks.

GOALS

"Meticle keeps every record connected — so managers can act on the same information their teams record at the point of care."

— MeticleCare Design Principle

Care Management

Digital care records with full audit trails

eMAR & Medication Management

Digital medication rounds with full audit trails. 31-day MAR chart, controlled drug register, missed-dose alerts, and print-ready reports for inspection.

- ✓ 31-Day MAR Chart with audit trail per dose
- ✓ Controlled Drug Register with witness sign-off
- ✓ Missed-Dose Alerts for timely follow-up
- ✓ Stock management with delivery tracking
- ✓ One-click print-ready MAR reports

Person-Centred Support Plans

Build tailored support plans with risk assessments and review dates. Full history retained for CQC inspection.

- ✓ Tailored plan templates by category
- ✓ Risk assessment linked to each plan
- ✓ Review cycle with reminders
- ✓ Active/Archived status management
- ✓ File attachments for supporting docs

Daily Care Notes

Record and share daily care observations with shift-based categorisation. Handover-ready and inspection evidence.

- ✓ Shift-based notes (day/night)
- ✓ Category tagging (personal care, behaviour, mood)
- ✓ Author attribution with timestamps
- ✓ Person timeline integration

Body Mapping & Clinical Records

Visual body maps for pressure areas, wounds, and skin conditions. Clinical scores for health monitoring.

- ✓ Interactive body map with photo evidence
- ✓ Pressure area tracking
- ✓ Clinical scores (BMI, Blood Pressure)
- ✓ Fluid intake monitoring
- ✓ Sleep record tracking

AI-Powered Insights

Meticle uses AI to triage incidents by severity, suggest care plan improvements, and generate compliance insights. All AI features are opt-in and GDPR-compliant.

Compliance & CQC Readiness

Inspection-ready compliance from day one

CQC Readiness Dashboard

Real-time compliance scoring across all CQC key lines of enquiry. Gap analysis with actionable recommendations.

Training Compliance Matrix

Track mandatory and optional training across all staff. Auto-assign modules and monitor completion rates.

✓

12+ built-in training modules

✓

Auto-assign by role and location

✓

Competency assessments with rubrics

✓

Compliance rate tracking per module

✓

Overdue training alerts

Identity & DBS Monitoring

Track staff identity documents, DBS checks, and Right to Work verification. Automated expiry alerts.

✓

Document upload with OCR extraction

✓

Expiry date tracking with alerts

✓

DBS check status monitoring

✓

Right to Work verification

DSPT (Data Security)

NHS Data Security & Protection Toolkit assessment tracker. Evidence pack generation for submission.

✓

10 DSPT standards tracked

✓

Evidence collection per standard

✓

Submission-ready evidence packs

✓

Year-on-year comparison

Policies & Documents

Centralised policy management with version control, review dates, and staff acknowledgement tracking.

✓

Policy version control

✓

Review date reminders

✓

Staff acknowledgement tracking

✓

Category-based organisation

Staffing & Scheduling

Smart rota planning with leave management

Rota Planner

Visual drag-and-drop rota with staff availability, shift costs, and coverage analytics.

- ✓ Drag-and-drop shift creation
- ✓ Staff availability and preferences
- ✓ Shift cost calculations
- ✓ Coverage gap detection
- ✓ Print-ready rota views

Shift Marketplace

Staff can pick up open shifts, apply for overtime, and manage their availability.

- ✓ Open shift publishing
- ✓ Staff application and assignment
- ✓ Overtime claims workflow
- ✓ Shift swap requests

Leave Manager

Multi-level approval workflow with delegation, balance tracking, and location-based constraints.

- ✓ Leave type configuration
- ✓ Approval routing (admin → delegate)
- ✓ Balance tracking per staff member
- ✓ Location max-staff-on-leave limits
- ✓ Calendar integration

Agency Management

Track agency staff, rates, and coverage. Monitor agency usage against budget.

- ✓ Agency worker profiles
- ✓ Rate management per agency
- ✓ Coverage analytics
- ✓ Cost tracking and reporting

Staff Directory

Complete staff profiles with qualifications, skills, emergency contacts, and compliance status.

Qualifications

Track certifications and expiry dates

Skills Matrix

Match skills to care needs

Emergency Contacts

Always accessible in one place

Expenses & Billing

Financial management with audit trails

Petty Cash Management

Two-person cash reconciliation for house funds and person funds. Daily balance checks with escalation for discrepancies.

- ✓ House funds and person funds tracking
- ✓ Two-person count verification
- ✓ Daily balance check with escalation
- ✓ Reconciliation workflow (submit → approve/reject)
- ✓ Top-up and transaction history

Expense Tracking

Record and categorise expenses with receipt upload. Role-based access ensures proper oversight.

- ✓ Category-based expense recording
- ✓ Receipt upload and storage
- ✓ Void with audit trail
- ✓ Role-based access (manager only)
- ✓ CSV/PDF export

Subscription Billing

Stripe-powered billing with automatic subscription management, invoicing, and dunning.

- ✓ Automatic subscription renewal
- ✓ Invoice generation and download
- ✓ Dunning email sequences
- ✓ Payment failure retry
- ✓ Same card across multiple homes

Reporting & Analytics

Pre-built reports and custom report builder. AI-powered insights for operational excellence.

- ✓ 30+ pre-built reports
- ✓ Custom report builder
- ✓ AI-powered insights
- ✓ Export to CSV/PDF
- ✓ Scheduled report delivery

Incident Management

Complete incident workflow from recording to investigation.
AI-assisted triage for severity classification.

✓ Incident recording with categories

✓ AI severity triage

✓ Action tracking and follow-up

✓ Confidential incident handling

Notify relevant staff, track corrective actions, and generate
evidence packs for regulatory reporting.

✓ Automatic staff notifications

✓ Corrective action assignment

✓ Evidence pack generation

✓ Audit trail for every change
